Dr. Robertson, who was called, found no bones broken, but it was necessary to take several stitches in a deep cut on the leg.

Flies Are Fewer.

There seem to be decidedly less flies this summer than usual. Is it possible that the fly-swatting campaign is bringing results? Such a thing would not be surprising. A similar campaign has made the Fourth same. Perhaps we can thank the automobiles for some extent also, for the banishment of the horse with the attendant horse-stable removes the chief breeding place of flies.

NOTICE TO SUBSCRIBERS.

It is an incontrovertible fact that no business enterprise can be run successfully without money. This is as true of the newspaper business as of other lines, and from this viewpoint we earnestly urge all who know themselves to be in arrears in their subscriptions to The Observer and who can possibly do so, to pay up at once.

Since the present owner assumed control many delinquents have liquidated their subscription indebtedness, but there are others, and a considerable number of them, who have not "come across." With the newspaper we are now producing semi-weekly, if every subscriber paid up promptly, the money received from this source would be inadequate to meet the expenses of its publication. Therefore every dollar in arrears in this department means that a dollar must be taken from some other place to make up the deficit. If you appreciate our efforts at newspaper making, please let us have a substantial expression of that appreciation.
